

Student Trainee - Working Student as an IT Programmer and Solution Consultant

Careers

What's in it for you:

- Know-How Buildup - Opportunity to work with Subject Matter Experts in an exciting technology field
- Lasting Partnership - Axiros is not offering short term jobs but the chance to work aside your study of computer science. There is a high likelihood of long-term contract extension – usually all our working students do stay with Axiros during their study
- Flexible Working Hours - Working hours onsite / offsite tailored to student needs – Axiros understands and supports your academic study
- Diploma Thesis - Axiros is offering diploma thesis to their trainee team
- Permanent Employment - Axiros usually offers a permanent employment contract after graduation – talk to our solution engineers, they all started as a trainee during their study

What Axiros expects:

Extended knowledge in at least 4 to 5 of the 7 topics below:

- Programming experience (preferably Python)
- Transfer Protocols (HTTP, SOAP, XML-RPC)
- Web Technologies (HTML, CSS, Ajax/JavaScript)
- Network Technology (Components, Protocols, Standards)
- Relational Database Systems (MySQL, Oracle, PostgreSQL, ...)
- UNIX-based OS experience (UNIX, Linux, Solaris, BSD)
- Concept and principles of OSI seven layer model

The position is expected to start as soon as possible and will last at least for an initial duration of 6 months.

You will be responsible for the development of applications to both - web and middleware components. Our customers are worldwide acting telecommunication companies.

So, if you are interested, please apply today!
